FF-NPQ™- RO
Five-Factor Nonverbal Personality Questionnaire

DEVELOPED BY SAMPO V. PAUNONEN, DOUGLAS N JACKSON & MICHAEL C. ASHTON

REPORT PREPARED FOR:
JANE SAMPLE (Gender: FEMALE)

QUESTIONNAIRE USED UNDER LICENSE BY:
Psychologist: DEMO
Administered on: 21/01/2006
Report generated on date/hour: 19.08.2006 / 13:31:16
Identifier/serial number: 00-XX-0000
UNDERSTANDING THIS REPORT

This report will help in the better understanding of the preferences, attitudes, and behaviors characteristic for the evaluated person in key dimensions of his/her personality.

This report is intended for the use of psychologists, counsellors or other specialised professionals in their work with clients.

Although formulated like a stand-alone report, which especially in the second section (detailed report) may also be easily read by persons not trained in the usage of psychological tests, this report has been projected and developed in such a way as to offer assistance to the professional who is interpreting the test results.

These results should only be considered in conjunction with professional judgment, after a careful and detailed analysis, and only after corroborating these data with the results of an interview and of possible other psychometric instruments. Results contained in this report may be subject to alterations and special highlights as a function of such corroborations made by a specialised professional.

This report is based on the FF-NPQ, an instrument that has been validated in a wide variety of research programs.

The Five-Factor Nonverbal Personality Questionnaire (FF-NPQ) is a structured, nonverbal, omnibus measure of personality traits, that was constructed to measure normal personality characteristics. The questionnaire consists of 60 items, grouped on 5 content scales, similar to the five factorial dimensions of personality commonly known as the Big Five.

WHAT INFORMATION DOES THIS REPORT INCLUDE?

In addition to the introductory section, the report contains two main sections:

1. The FF-NPQ profile
2. The Detailed Report

1. Profilul NPQ

The FF-NPQ profile section contains charts of the scores characteristic for the evaluated person on the 5 scales of the FF-NPQ.
The scores for the 5 FF-NPQ scales are represented in percentiles. Percentiles are values that divide cases according to values below which certain percentages of cases fall. For example, the 10th percentile for the Do scale is the value of the scale where 10% of the subjects score below and 90% above. Percentiles are computed based on a Romanian national-wide normative sample of N=1800 subjects (900 males and 900 females).

Please also note that the FF-NPQ profile section contains to graphical visualisations, one based in both scoring and graphic representation on the combined norms and one based on the specific norms, requested at the scoring of the data. Specific, or more general scores, can be important depending on how the report is being used.

2. Detailed report

The detailed report offers a drilldown of the characteristics ascertained through the Five-Factor Nonverbal Personality Inventory and already pictured in the charts in the FF-NPQ profile section. The charts in this section and the subsequent comments are based on the combined norms.

This section has been developed in such a way as to offer assistance to the psychologist who is interpreting the results, as to minimize his/her need of reverting to the test manual.

This section may also be read by the evaluated person as part of a structured discussion or development program he/she is part of. However, considering the conclusions of this report should only be done after discussing them with a specialised professional.

This section contains for every one of the 5 FF-NPQ scales one chart, capturing both the percentiles (above) and the raw scores (below), with a special marker where the evaluated person’s score has been computed. Also, below every chart one may read a description of typical behaviors for low and high scorers on the respective scale, as well as typical adjectival descriptions for these low and high scorers.
FF-NPQ Profile. PERCENTILES

Scoring based on: THE STANDARD ROMANIAN FEMALE NORMS (N=900ss)

Extraversion (E)  |  Agreability (A)  |  Neuroticism (N)  |  Openness (O)

Scoring based on: THE STANDARD ROMANIAN COMBINED NORMS (N=1800ss)

Extraversion (E)  |  Agreability (A)  |  Neuroticism (N)  |  Openness (O)
DETAILED REPORT

* This detailed report is based on the COMBINED norms.

** For usage of this detailed report, please consider the description contained in the introductory text to this file.

---

** Extraversion **

** Percentila: 3 **

** Scor brut: 23 **

Avoids the role of leader or entertainer; tends to avoid social interaction and to stay in the background; is hesitant to meet new people or to be the center of attention.

quiet, shy, retiring, withdrawn, passive, reserved, silent, distant, introverted.

Often entertains or leads others; enjoys social gatherings and parties; engages in conversations; likes to make new friends.

outgoing, sociable, lively, assertive, talkative, friendly, bold, fun-loving, extraverted.

---

** Agreeableness **

** Percentila: 78 **

** Scor brut: 66 **

Feels little inclination to help others, either emotionally or materially; readily expresses criticism and anger, through verbal or even physical means.

harsh, rude, critical, antagonistic, belligerent, cold-hearted, pitiless, hard-hearted.

Provides help and support for others; often assumes role of care-giver; avoids confronting others; is reluctant to express aggression, either verbally or physically.

kind, sympathetic, helpful, warm-hearted, gentle, polite, mild, cooperative, agreeable.

---

** Conscientiousness **

** Percentila: 6 **

** Scor brut: 34 **

Allows personal surroundings and effects to be in disordered state; avoids setting difficult goals; has difficulty in maintaining work effort for long periods.

haphazard, lazy, lax, sloppy, aimless, chaotic, messy.

Maintains tidy and orderly surroundings; organizes personal effects; sets ambitious goals; is able to maintain attention and to work long hours.
